2024 Scrap Tire Grant Application

III. Estimated Program Cost: Tire Disposal ONLY

Anticipated Scrap Tire Vendor/Transporter _____

Tire Disposal:	Cost of tire disposal:	Estimated cost:
Number of tires estimated: _____	x \$ _____ per tire	= \$ _____
Tonnage estimated: _____	x \$ _____ per ton	= \$ _____
Cost of container: (Roll-off, trailer, etc.)	\$ _____ x # _____ of containers	= \$ _____
Miscellaneous cost:	(Delivery charge, service charge, fuel surcharge, etc.)	= \$ _____
	Total estimated program cost	= \$ _____
	Total grant funds requested:	= \$ _____
	(see Grant Awards – pg 3)	

Authorizing Official Signature: _____

For consistency in reporting, we are requesting all communities report the **TONNAGE** of tires collected on their reimbursement sheets after their collection events. This allows us to more accurately report this program in our required documentation to the Ohio EPA. We are telling this to you now so that you can request this from your vendor when you book them for your event.

In previous years, documentation sometimes only reported “1 trailer load” or “300 tires” which can vary greatly in weight. Your Scrap Tire Transporter should be able to report with reasonable accuracy the weight of tires they removed for disposal for your event. This will help us greatly in producing our annual report to the Ohio EPA.

THANK YOU!

District Use Only!
